

src/register_callbacks.c

```
graph TD; A[src/register_callbacks.c] --> B[register.h]; A --> C[register_callbacks.h];
```

A diagram showing a source file, `src/register_callbacks.c`, at the top. Two blue arrows point from this file to two header files below it: `register.h` on the left and `register_callbacks.h` on the right. The `register.h` box has a light gray background, while the `register_callbacks.h` box has a white background.
